MEMORANDUM FOR THE RECORD

SUBJECT: CS Records I & II

1. The CS Records I & II Instruction, normally given to CT's either before or after receiving their Operations Training should be included as part of the Ops. Trng., and should not be a separate training entity for CT's.

2. This would require a modification of the existing Ops. instruction to include lectures on CS Records I & II plus incorporation of Records instruction in all of the practical exercises in which it is appropriate, e.g. exercises requiring the student to write ops or intel correspondence - dispatches, telepouches and cables. [REDACTED] is a good example of an exercise in which Records disciplines are required.
